

Kelly is a true leader in Dental hygiene. She has made such an impact on my career. She has the passion for dental health and has a way with people. Kelly sincerely cares about people and how healthy they are. She also is a leader in a way she can coach others to success.

—Jennifer Seider

## Kelly Hemrich

**Practice Advisor**

As a Dental Hygienist working as a dental Practice Advisor Kelly Hemrich will bring years of experience to oral healthcare providers and their teams. Kelly believes in total body health and prevention of disease. She always looks for the positives in life and that reflects in her training style.

Kelly is a graduate of Lake Land College in Mattoon Illinois with a degree in Dental Hygiene as a Registered Dental Hygienist. Her favorite aspect of working as a hygienist was building relationships with her patients. She says that the greatest reward was seeing each patient at a new level of health and contributing to maintaining that health.

Kelly has spent 25 years working as a hygienist in a clinical setting. She has seen what works and what doesn't work in many offices, and is looking forward to creating new relationships with dental teams and helping them grow professionally while having fun!

Kelly is a mentor to Breast Cancer Survivors and recently celebrated her 10 year anniversary. She lives on her family farm in rural Illinois with her husband Rob and three boys.

In the twenty years of knowing Kelly in and out of the dental office I have found her to be one of the most amazing people I ever met. She is the best hygienist I ever worked with providing patients with the best care available and assisting them to move forward with decisions that lead to wellness. She has a way of bringing a team together, helping all involved feel more capable, more excited about their work and happy to be a part of the team.

—Dr. Jeff Roth

Kelly Hemrich is a breath of fresh air. She is funny, diligent, creative and very attentive to detail. Even more important to me than all of her business skills is her kindness. Continually looking for ways to bless others, she is a wonderful asset to her community. Kelly is a motivator who is also eager to learn and isn't afraid to get her hands dirty. She has a way of welcoming others into community and I'm honored to know her!

—Susan Shull
